Tournament Format

Every bowler bowls 6 games at doubles pace, moving lanes after every single game. At the end of qualification every bowler is ranked based on their total handicapped pinfall.

Bowlers 1-8 get a bye to the round of 16, bowlers 9-24 play a knockout match using the XGames format to determine which of them make it to the last 16.

The tournament is a straight knockout from this point onwards (through the quarter-finals, semis and finals) until we have a winner, with each match being decided using the XGames Scoring System.

XGames Scoring ignores the traditional bowling scoring system. Instead players compete to win points on a shot by shot basis.

A strike beats any spare, and any spare beats any open frame. If both bowlers spare, the highest first ball wins, and if both open the highest total pinfall wins. If the frame is drawn the point continues into the next frame and so on! So 1 point in XGames Bowling could be one single shot, or it could last for an entire game.

The first player to win 3 points in each match will be declared the winner, except in the final and 3rd/4th play-off, where it will be the first to 5 points!
